

## Driving Directions to Nadal

To get to Nadal from Lacapelle-Marival, leave Lacapelle on D653, in the direction of Latronquière. Almost exactly 5 Km from the edge of Lacapelle you'll find a little road off to your left that may—or may not—be marked, “Nadal.” (Sometimes the sign is up and sometimes it isn't.) On the right are large strawberry fields covered in plastic that you can't miss. You can turn left there, go straight until you reach a house on the road on your left. Turn right there. You are now paralleling our property on your right. Turn into the first driveway on the right. You'll find it between the house and the bread oven, opposite a turning in the road to your left.

There is another way into Nadal, and I think it is more scenic. You may want to go this way your first time. For this one, go a kilometer or so further on D653 before you turn. The turning is easy to find. You'll see a church and school on the left (that's La Remise). Just past it there is a tiny road on the left just past the phone booth. Turn in there. Then turn *immediately* to your left again. This tiny road will wind down the hill, and through a narrow space between a house and barn in “Bernadets.” Just past those houses, bear right at the fork, and go to the end of the road. There should be a corn crib on your right, Turn left at the “T.” Follow the road down the hill, past the mill, and up the hill again. At your first road on the right, stop and turn left into the driveway of the house, between the house and the bread oven.
